## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement filed 5/9/2006 is acknowledged. However, the DD 288234; DE 69322206; DE 9406227; JP 2220453; JP 367187; JP 10339743; JP75197; JP 7273509 and JP 63160355 have not been considered by the examiner because the applicants fail to provide English abstracts for the non-English-language documents in the IDS accordingly to 37 CFR 1.97, 1.98 and MPEP § 609. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

### ***Allowable Subject Matter***

2. Claims 1-20 are allowed over the prior art.

3. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 11 are allowed because the examiner found that applicants' argument in the Remarks filed on 5/26/06 is persuasive.

Applicants argued that Neither Hollman US Patent No. 6,198,199 nor Peters et al US patent No. 6,002,263 discloses a probe station enclosure comprising a conductive wall defining a chamber substantially enclosing the device supporting

surface of chuck and having a portion that separates the chuck from a thermal device (see Page 2, lines 7 from the bottom and page 4, lines 13-18 of the Remarks). During further search, the examiner found that the prior art in the record filed before 6/30/1999 does not teach or suggest an enclosure for a probe station chuck having a portion separating a device supporting surface of chuck from a thermal device as shown in Fig. 4. Moreover, applicants filed TERMINAL DISCLAIMER on 2/28/05 and the TERMINAL DISCLAIMER was properly recorded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
